### REASONS FOR ALLOWANCE

1. Claims 1, 2, 4, 6-8, and 17-20 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 5, 9-11, and 13, directed to the process of making the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 5, 9-11, and 13 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on August 26, 2002 is hereby withdrawn.

2. Claims 1, 2, 4-11, 13, and 17-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 1 is directed to an ultrathin film comprising layers consisting essentially of polymer layers and layers of lamina particles alternately assembled, wherein the lamina particles are exfoliated microcrystals of a layered titanium oxide wherein the thickness of each layer is within a range of sub-nm to nm.

The closest prior art, US Patent 5,935,717, fails to disclose or render obvious a an ultrathin film comprising layers of lamina particles alternately assembled with polymer layers, wherein the lamina particles are exfoliated microcrystals of layered titanium oxide particles.
